Notice before introduction 188, 1840	PAGE 79
--------------------------------------	-----------------	------------

The following Bill, together with the Statement of Objects and Reasons, is published for the purpose of eliciting opinion. Notice is hereby given that the said Bill will be considered on or after the 30th November 1840 and that any objection or suggestion which may be received with respect thereto before the said date by the Secretary to the Government of Madras in the Public Works Department, will be considered.

A Bill further to amend the Factories Act, 1834, in its application to the Province of Madras.

WHEREAS it is expedient further to amend the Factories Act, 1834, in its application to the Province of Madras, for the purpose hereinafter appearing;

AND WHEREAS the Governor of Madras has, by a Proclamation under section 23 of the Government of India Act, 1835, assumed to himself all powers vested by or under the said Act in the Provincial Legislature; Now, THEREFORE, in exercise of the powers so assumed to himself, the Governor is pleased to enact as follows—

1. This Act may be called the Factories (Madras Amendment) Act, 1840.

*[Amendment
of section
52 of
the Factories
Act, 1934,
substituted,
namely—]*

"(2) A certifying surgeon shall, on the application of any young person or his parent or guardian accompanied by a document signed by the manager of a factory that such person will be employed therein if certified to be fit for work in a factory, or on the application of the manager of the factory in which any young person wishes to work, examine such person and ascertain his fitness for work in a factory."

STATEMENT OF OBJECTS AND REASONS.

Under section 51 of the Factories Act, 1934 (XXXV of 1934), no child above twelve and no adolescent may be allowed to work in any factory unless a certificate of fitness is obtained from a certifying surgeon. Section 52 provides for the examination and certification of such children and adolescents, without any restriction whatever, either on their own application or on that of their parents or guardians or on the application of the manager of the factory in which they wish to work. As no fee is payable for such examination and certification, certifying surgeons have to be appointed mainly from among the ranks of Government medical officers. These have often more work than they can effectively perform and the examination of children and adolescents who have little or no prospect of employment needlessly increases their work without any compensating advantage. It is therefore proposed to restrict the examination of children and adolescents, on their own application or on that of their parents or guardians, to those cases where they are able to produce a certificate from the manager of a factory that they will be employed in the factory if a certificate of fitness is granted to them.
